BOOKS TO LIVE BY

THE WOMANCRAFT STORY

Womancraft Publishing was founded on the revolutionary vision that women and words can change the world.

We act as midwife to transformational women's words that have the power to challenge, inspire, heal and speak to the silenced aspects of ourselves. We share powerful new voices with new visionary ideas, empowering our readers to actively co-create cultures that value and support the female and feminine. This, to us, is deeply exciting and powerful work.

An independent publisher founded in 2014 in Cork, Ireland by Lucy H. Pearce, our authors are based across North America and Europe. Several of our titles are in multiple languages – nine so far. We aim to share a diverse range of voices, of different ages, backgrounds, sexual orientations and neurotypes, seeking ever greater diversity.

Several of our books have been #1 Amazon bestsellers in many categories, as well as Nautilus and Women's Spirituality Award winners.

They have been endorsed by many of our heroines… and heroes: Jean Shinoda Bolen, Oriah Mountain Dreamer, Glennie Kindred, Naomi Lowinsky, Jane Meredith, Steve Biddulph, Dr Michel Odent, Miranda Gray, Lynne Franks, Phyllis Curott… and featured by CNN.com, *Cosmopolitan, Psychologies, The Irish Times, The London Review, Sage Woman, Kindred Spirit, Soul & Spirit, Watkins Books, Juno, The Green Parent*... They are shared far and wide on social media, including by P!nk, Paulo Coelho, Justine Musk... And most importantly are treasured as "life-changing" by women around the world.

As we find ourselves in a time where old stories, old answers and ways of being are losing their authority and relevance, we at Womancraft are actively looking for new ways forward.

We work on a full circle model of giving and receiving: reaching backwards, supporting Treesisters' reforestation projects and the UNHCR girls' education fund, and forwards via Worldreader, providing e-books at no-cost to education projects for girls and women in developing countries. Many of our books donate a percentage of royalties to causes aligned with their message. We donate many paperback copies each year to menstrual education projects, red tents, women's groups, women's libraries and prisons around the world including: India, South Africa, Haiti, USA, Canada, UK, Ireland and France…

Our engaged and dynamic authors are regularly invited to speak and teach at conferences, festivals, book groups and on podcasts. We are honoured that the Womancraft community is growing internationally year on year, seeding red tents, book groups, women's circles, ceremonies, classes and businesses - transforming lives and communities.

We are contributing to the change we want to see in this world. One book at a time.
